1. The reissue oath or declaration filed with this application is defective because it fails to particularly specify the errors relied upon, as required under 37 C.F.R. § 1.175(a)(5).

**Every** departure from the original patent represents an "error" in said original patent under 35 U.S.C. 251 and must be particularly and distinctly specified and supported in the reissue oath or declaration under 37 CAR 1.175.

Applicant newly presented claims 12-21 are replete with changes which are not particularly and distinctly specified and supported in the reissue oath or declaration.

For example:

- a) New added claim 10, lines 10-11 and 14-18, "... parallel to a primary plane along a first straight line path ...", "... patly outside ...", "... plane to bring said selected one of said ..., despite a displacement of said one of said magazine and said transport plane';
  - b) New claims 10-119;
  - c) Claim 43 do not include "disk conveying means" or "disk reading position";
- d) A clause reciting "means for moving said disk from said first position to said disk reader" has not been added to claim 32;
- 2. Claims 1-3, 5-7, 10-119 (conflicted against claims 27-44 which have been examined), and 27-44 are rejected as being based upon a defective reissue Declaration under 35 U.S.C. § 251. See 37 C.F.R. § 1.175.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

- 4. Claims 1, 27-36 and 43-44 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Kawakami (US. 4,567,584).
- 5. This is a follow up of the communication mailed on 12/6/97.
- 6. This is a Non-Final Office Action.

## Important Notice
